ORGANIC SUPPLIERS LIST 2026

Irish Organic Association

"Organic on every table"

Note: *Farmers should always ensure that individual inputs purchased from suppliers are permitted for use in organic production and request the reference documentation where appropriate.*

For updates to this list please see our website at: https://bit.ly/3OQWQ0P

SEED SUPPLIERS

Goldcrop Ltd T: 021 4882800 www.goldcrop.ie	Certified Oat Seed 70% Organic grass seed mixes
Seedtech (Seed Technology Ltd) T: 051 832814 www.seedtech.ie	Organic oat seed
Germinal Ireland Ltd T: 0504 41100 www.germinal.ie	100% Organic perennial Ryegrass seed 77% Organic grass seed mixes 70% Organic grass seed mixes DAFM Red Clover Silage Scheme mix DAFM Multi Species Scheme mix
Morrin's Pedigree Animal Feeds/ William Connolly & Sons ULC T: 059 6481122/059 9775800 www.redmills.com	Organic grass mixes Organic combi-crop seed mixes Organic cereal seeds – oat, wheat, barley Seeds supplied by Western Seeds
DLF Seeds Ireland T: 051 897060 www.dlf.ie	DLF Organic Performance (75% Organic seed) DLF Organic Silage (75% Organic seed) DLF Organic Multi-species (70% Organic seed) *Available from merchants nationwide and online at Fruit Hill Farm*
Europrise Company Ltd T: 01 8438711 Email: info@europrise.ie www.europrise.ie	Wide variety of organic vegetable seeds

Nutribio Limited www.nutribio.ie	Pectolit Green
	Certified by Irish Organic Association as a supplier of organic products
Certified Product Scheme	Certified by Irish Organic Association under the IOA Certified Product Scheme *The IOA Certified Product Scheme provides private certification for products such as composting materials, homeopathic remedies, pet food, permitted soil treatment agents and permitted feed additives, for example, calcium carbonate. These products are certified under private standards as they are all outside the scope of EU organic legislation.*

Sales of Organic Fodder/Feed, Seeds and other Inputs may also be advertised on the Organic Trading Hub, operated by the Department of Agriculture Food and the Marine.

VETERINARY MEDICINES

Routine veterinary inputs are not permitted – treatment can only be administered where the animal shows signs of illness.

The use of veterinary products requires justification to be available to the Irish Organic Association at inspection time.

Justification can be:

- Vet letter
- Faecal Analysis
- Blood Analysis
- Soil Analysis

Withdrawal periods must be doubled in organics.

Organophosphate dips **are not allowed** in organics, products that can be used instead are:

- Clik
- Clikzin
- Ectofly pour-on (cypermethrin)
- Cyperguard (cypermethrin)
- Vector (cypermethrin)

The use of hormones **is not allowed** in organics. There may be rare exceptions for individual animals and you must ensure you contact the Irish Organic Association before using any hormone treatments.

Ivermectin-based products should be avoided, all other means of veterinary intervention should be exhausted before ivermectin-based product can be used.

Number of treatments permitted without a 12-month period (not including vaccine or parasite controls):

- Animals for meat production – 1 course of treatment
- Animals for breeding – 2 courses of treatment
- Dairy mastitis control – 2 courses of treatment

A course of treatment means all necessary measures taken to restore the animal to health following a particular disease.
